

Anti-Corrosion

Corrosion Inhibitor

Use on ferrous metal as a long-term protective coating for stored equipment. Film will not harden or crack, forms a 'self repairing' waxy film. Will not stain or mark components.

Waxy Anti-corrosion Treatment

Zinc Primer

Zinc phosphate primer promotes adhesion of top-coat paint to 'difficult' substrates.

Dry to touch in 30 minutes, Dry to paint in 1 hour (recommended 24 hours for best results).

Multi-purpose Metal Primer

Battery Terminal Protector

Protects battery terminals on forklift trucks, generators, and UPS from wear and corrosion and seals out damp from batter connections.

Highly visible dye gives early warning of acid leakage by changing from yellow to red.
