

Food Grade Cleaning & Lubrication

Dry PTFE Lube FG

Use for the lubrication of chutes, slides, and pins. Where silicone cannot be used.
 NSF H1 (No. 139899) registered for use in the food industry.
 Particularly suitable in low load, low speed applications.
 Operational Temperature range: -150°C to +26°C.

NSF H1 Registered Dry Lubricant

12.10

Belt Dressing FG

Apply to all types of belts to increase grip, reduce squeak and prolong life. Use on conveyor drive transfer belts, conveyor belts, and belts subjected to wet environments.
 Belt Dressing FG is NSF H1 registered (N° 140257).
 Protects belts from deterioration through oxidation and heat.

Adhesive Belt Lubricant

7.80

Penetrating Oil FG

For use in the food & drink industry on seized fasteners seized by heat, corrosion, over-tightening, and contamination.
 NSF H1 registered (N° 140260) for use in the food industry.
 Assists quick disassembly of mechanical components, fittings, and close tolerance fasteners.

NSF Registered Penetrant for Seized Parts

6150009470

9.10

Moisture Remover FG

For use on equipment to displace moisture, particularly after wash-down or because of water ingress. Ideal for use on electronics.
 NSF H2 registered (No.142299) for use in the food and beverage industry.
 Provides precision lubrication by its thin, high dielectric strength, lubricating film. Can be used as a multi-purpose lubricant.

NSF Registered Dewatering Fluid
