

Metric Hydraulic Tubing

Hydraulic Tubing

Maximum working pressure has been determined according to DIN 2413 scope of application 1, for primarily static load at temperatures up to 120°C.

Please Note: Due to new legislation governing the use of chromium plating the yellow zinc plated tube will be phased out of the manufacturers production and hence when stocks have been exhausted will be no longer available.

Its replacement will be the Chrome 6 free tube.

Chrome 6 free tube will only become available as the yellow zinc plated stocks become exhausted in any particular size.

3 metre lengths next day.

6 metre lengths may take up to 3 working days to be delivered, dependant on weight and delivery address location. Additional carriage charges may apply.

For full details please contact Business Development Team.

Minimum of 10 Lengths is advised up to 8mm to prevent damage in transit.
