### Visitec Clamping Nuts, Light Series

The rail nut with loss protection. The larger flange area prevents the rail nut falling into the rail during installation which is a problem inherent to the traditional design. The new design has a vibration & sound installation function. The rubbercap has an intergrated screw locking device. Fast & easy to install, easy to adjust, especially for vertical installations.

#### Advantages:

- Vibration & sound insulating function
- Designed especially for vertical installations
- Fast & easy to install
- 40% time savings for installers
