

## Series 70KB

### ULTRA-FLO »»

**Description:** The quick-connect-couplings series 71-76 are robust and simple models having best proven their quality for many years in many applications. Only couplings and plugs with the same size internal threads will match. These couplings are designed for manual operation, i.e. to couple the sleeve must be first pushed back.

**Advantages:** The simple and robust design guarantees a maximum of safety.

**Ideal for Applications:** With liquids and in laboratory and food areas.

**Technical Data:** Only couplings and plugs of the same series will match.

**Interchangeability:**  
Industrial interchange ISO 7241-1 Series B,  
BS 7198. Hansen 'HK'.
