

## Air Preparation

**Working Temperature:**  
-20°C to +70°C

**Maximum Working Pressure:**  
9 bar

Soft Start Valves are increasingly being used in systems where safety is key in the start up of machines & systems in helping protect the operators and the machines.

The valves allow the pressure to gradually increase to the full flow required on start up of the system. OSHA approved.

Lockable shut off valves prevent accidental start ups when maintenance or service work is being carried out on the machines. Padlock supplied.
