

Safety Valves

Atmospheric Safety Valves, 6mm-15mm

Seetru Atmospheric Discharge Safety Relief valves are compact, highly efficient and incorporate the exclusive 'Tutchtite' seal technology to give repeatable bubble tight sealing performance. Suitable for Air & Gases including refrigerant.

Type approved and/or manufactured in conformance with national and international standards which include BS6759 Part 2 & 3, ISO 4126 and TUV (Germany) in accordance with AD Merkblatt A2. Compliant with the requirements of the European Equipment Directive 97/23/EC and CE marked Flow rates calculated:

Std Ltrs/Sec of Air @ 15°C

Seals: Viton

Sealing: Elastomer

Maximum Temperature:
180°C
