

## Actuated Process Ball Valves

**Actuator Working Temperature:**  
-20°C to +80°C

**Ball Valve Working Temperature:**  
-20°C to +200°C

**Actuator Working Pressure:**  
2.5 to 8 bar

**Ball Valve Maximum Working Pressure:**  
70 bar (1000psi)

**Actuator**

**Media:** Dry or lubricated compressed air, to be filtered by a 30µm filter element

**Travel Adjustment:** ±5° on the rotation 0° and 90°

**Ball Valve**

Full Bore

### 3 Piece Stainless Steel Body Ball Valves, Socket Weld

Tech Sheet  
10153

Double Acting, Aluminium Actuator

0364	Body	£
